

## **The Grünhainichen workshops**

Since 1917, the old half-timbered house on Chemnitzer Straße in the Erzgebirge town of Grünhainichen has been the headquarters of the traditional manufactory. And to the present day, Wendt & Kühn has remained a manufactory: manu factum – made by hand. Each figurine and music box produced in our Grünhainichen workshops is one of a kind, displaying the unique artistic style of one of our experienced and talented painters. A distinctive quality which inspires collectors and enthusiasts throughout the world.
