

## **Preserving originals – repairs by the master**

Stepping into the Wendt & Kühn repair department workshop on the grounds of the traditional manufactory's Grünhainichen headquarters is like stepping back in time. Surrounded by figurines created anywhere between 1915 and today, experienced wooden toymakers are hard at work masterfully restoring angels, Blossom Kinder and music boxes by hand. Customers can bring figurines in need of repair into either of the company's shops in Grünhainichen and Seiffen themselves or can also entrust the entire process to their favorite Wendt & Kühn retail dealer.
